Notice of Discontinuance							
Subject:	P1L Series Cylinders						
From:	Rick Roy	Date: June 2015			ABU-0143		

The P1L Series round body cylinders will be discontinued as of October 1st, 2015. Seal kits will be available for cylinder repair for five years after this date. The chart below represents the seal kits part #s that will be available. Each kit contains replacement seals for either a single or double rod P1L version.

Bore Size	P1L Cylinder Repair Kits	
	Class 1 Seals, Std. Service	Class 5 Seals, High Temp.
mm	Part	Part
20	P1L020K001	P1L020K005
25	P1L025K001	P1L025K005
32	P1L032K001	P1L032K005
40	P1L040K001	P1L040K005
50	P1L050K001	P1L050K005
63	P1L063K001	P1L063K005
80	P1L080K001	P1L080K005
100	P1L100K001	P1L100K005

For users looking for a possible alternative product, see the Parker round body SR Series and/or the metric tie-rod P1D-B. Please contact the Parker Canada Division Technical Support with any conversion questions.

The P5L product series will continue to be offered after the discontinuance of the P1L. The P5L will be available with the SR and P1D-B with full interchangeable cross-reference part number matrix by September 2015.
