Notice of Discontinuance							
Subject:	PVL-C10						
From:	Steve Richardson	Date: February 2017				ABU-0180	

Parker Canada is announcing the intention to obsolete the PVL-C10 products effective June 30, 2017.

Parker will continue to sell down current inventory levels, as each is depleted the part number will be made obsolete, and the complete product list will be obsoleted June 2017.

Substitution Recommendations

Presently within the PVL family there are no alternatives, it is suggested the two products to promote would be:

- Moduflex Valve Range – V Series – Size 2
- H ISO Series – 15407-2 – Sizes 01

The following list of items will classified as obsolete:
